5/16	.312	.597	.556	.191	.266	.105	.087	T40
3/8	.375	.717	.670	.230	.266	.135	.115	T40
1/2**	.500	.815	.765	.223	.352	.135	.120	T50

*#6 Undercut dimensions are not addressed within the ASME B18.6.3 standard.

** 1/2" diameter floorboard screws have a trilobular point, not a Type-F.

Description	A countersunk, six-lobe drive thread cutting screw with machine screw thread pitch, blunt point, tapered entering threads, and multiple cutting edges. Larger diameter sizes may also be supplied as a thread rolling screw rather than thread cutting. Floorboard screws are, by definition, available in much longer sizes than standard type-F screws.
Applications/ Advantages	Floorboard screws are specifically designed for installing wood floors into truck trailers.
Material	AISI 1016 - 1024 or equivalent steel
Heat Treatment	Screws shall be quenched in liquid and then tempered by reheating to 650°F minimum.
Surface Hardness	Rockwell C45 minimum
Case Depth	<i>No. 8 thru 12 diameter:</i> .004 - .009 <i>1/4" diameter & larger:</i> .005 - .011
Core Hardness (after tempering)	Rockwell C28 - 38
Thread Dimensions	<i>#8 thru 3/8" diameters:</i> Same as those for Type-F thread cutting screws. <i>1/2" diameter:</i> Same as those for a thread rolling screw.
Plating	See Appendix-A for information on the plating of floorboard screws.
